<u>LINE</u>	<u>NAME</u>	<u>TRANSCRIPTION</u>
1.		[00:50 Recording Start]
2.	SF:	It might have been the MGF and the TB7 because since you don't give your horses much it was probably, uh, kind of like treating a virgin horse.
3.	AH:	The one that looked like it worked the best on is the horse, the tie-up horse and that's the one that we treated with the whole program stuff. Um, that's the one that had the tie-up issues or the bad blood, but he was on the bit. Like we never even asked him, like Juan trained him this morning and he came home, like I told you in 27 with the jog cart and not even, like, fast. Like just on his own, like completely.
4.	SF:	Alright, well awesome. You know, because like I said, it usually takes like a week to kick in, but, again, when you have horses that are getting everything under the sun versus your horses which are not getting much, you know. It's all relative.
5.	AH:	Right, yeah so, we will see how they do. But, um – so, I will keep you posted.
